

1. Patient Radiology images can be uploaded via the **"Upload Radiology Images"** link under the **"Health"** menu and from the appointment details page.

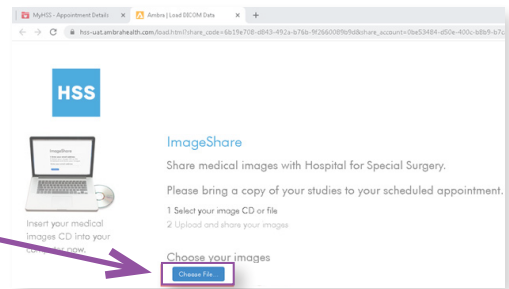

A) Health menu -> Upload Radiology Images

2. B) Appointment details page (prior to or after Visit Pre-Check completion).

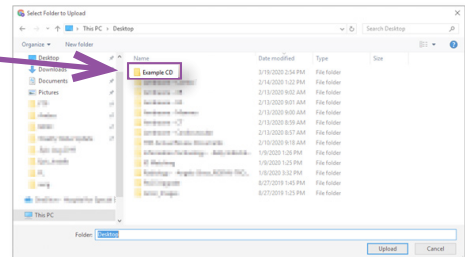

3. After clicking the link, patient is taken to the Ambra Image upload portal. Click **"Choose File"**.

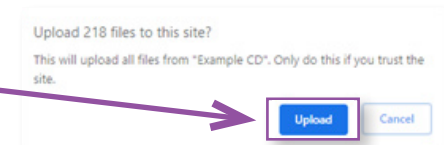

Locate the file(s) to be uploaded.

4. If no file(s) appear in the folder, it means the file(s) are not the appropriate DICOM format. If this happens, the patient should be directed to call his/her physician's office to see if A) a new study is necessary or B) the visit can go on as planned.

5. After selecting the appropriate file(s), click **"Upload"**

6. Patients will have to Click the "I understand..." box before uploading selected studies.
